

# WP Engine: A fully managed service.

Take the complexity out of website maintenance with a managed hosting platform for WordPress<sup>1</sup> sites that gives you industry-leading speed, security, and support.

## What makes WP Engine the best managed host for WordPress?

Think of a managed host for WordPress sites as a dedicated technical assistant that powers your website. This includes threat detection and blocking, daily backups, regular WordPress updates, caching to boost page speeds, and more. WP Engine additionally equips you with premium tools to design, build, and launch your website with ease and 24/7 live support should you need it.

### Convert more

- End-to-end performance with WordPress-specific optimizations and 100s of proprietary rulesets that optimize world-class servers from GCP, AWS and Azure for WordPress.
- EverCache®, our proprietary caching for WordPress makes existing sites lightning-fast with one click.
- Global CDN spanning 200 points of presence worldwide allows for peak performance regardless of where your visitors are.

### Manage less

- Automatic updates for plugins, themes, WordPress, and PHP with auto roll-back functionality gives you hours back every week.
- Always-on Security through WordPress-tailored DDoS Protection and managed WAF protect your site against threats now and in the future.
- Annual SOC 2 audits and ISO 27001 certification ensure your sites are following the most sensitive industry security requirements.

### Access experts

- 24/7 phone and chat access to experts in WordPress helps you from pre-launch to go-live.
- Premium onboarding services with a 40-point Technical Health Assessment make your migration seamless and your launch successful.
- Application performance monitoring pinpoints exactly how your code impacts site speed and alerts you to any slowdowns.
